

Here are some recommendations and specifications that may come in handy when adding information to BuylowaArt.com.

Please print this form - you can refer back when adding information/products.

Recommended Browser:

Internet Explorer 6 and Above
Netscape Navigator 7 and Above

Firefox, Safari, and Opera should be acceptable, but if someone is having a problem we suggest attempting with one of those listed above.

Outlook and Outlook Express are email clients and should NOT be used as a browser in this case.

Operating System:

Windows 98 and Above
Mac OSX and Above

Image Size / Type Details:

Thumbnail:	Width 50 pixel; 72dpi; jpg or gif; RGB
Image1:	Width 500 pixel; 72dpi; jpg or gif; RGB
Image2 (another view or option of image1):	Width 500 pixel; 72dpi; jpg or gif; RGB
Image3 (another view or option of image1):	Width 500 pixel; 72dpi; jpg or gif; RGB
Image size should be between 20K – 40K	

When naming an image, please refrain from putting spaces in the name and limit names to 10 characters or less with a 3 character extension (no capital letters in extension).

Also – make sure that there are no spaces or capitalized letters in your file names.
